

# The new Biodrier Business<sup>2</sup>

The ultra high-speed hand dryer

## Biodrier Business<sup>2</sup>

The Biodrier Business<sup>2</sup> creates a jet airflow that will dry your hands within 10 seconds. It also adopts CPU technology with a wide LED display. A concealed switch allows you set the unit at two heat levels 1600 watts (heater on) and 800 watts (heater off) and is fitted with Antibacterial filter and Air Freshener as standard.

## Brush-Less Motor

The Biodrier Business<sup>2</sup> is based on a simple yet powerful idea – Using the heat from its own motor to provide the hot air used to dry the user's hands.

The brush-less motor saves energy as it consumes only 800 watts of power. This means it uses much less power than conventional hot air hand dryers, saving you money and reducing your carbon footprint.

## Biodrier gel blocks for the Business<sup>2</sup>

The exclusive gels for the Biodrier Business<sup>2</sup> are sold in packs of 12, each gel will last for around a month at a time. The gels are made from natural sources and are chemical-free. The Biodrier gel blocks perform three functions in one:

1. Adding the blocks to the unit will moisturise the user's hands.
2. The blocks provide a sanitizer for the user and the Biodrier unit.
3. The blocks come in various fragrances and provide a fragrant aroma within the washroom.
